“

I didn't know much about the course going into it, I only knew it had to do with leadership and team building skills. Coming back from the islands, I learnt so much more and made so many friends through tough and challenging experiences. I took home a wealth of knowledge consisting of leadership, communication, and team building skills and the energy plus motivation to start my own business.

Before the course, I was unsure of my future and where I would end up but coming home, I found my own pathway and was motivated into shaping my future.
